INFOPARK On the Rise

In 2001 8 IT-companies of Belarus united to form "Infopark". In 2008 the Association "Infopark" comprises 62 software development companies with about 9 000 software engineering professionals.

International Activities

International co-operation initiatives have always been a major part of the "Infopark" 's total scope of activities.

- Among the global events organized by "Infopark" there is
- Banking Information Technologies Forum "Bank IT" (November'08)
- International Conference "Software Applications as Intellectual Property Objects" (June'08).
 These events have found a wide positive response among the IT professionals, and it's planed to hold them on the annual basis.
